## SKILLS

---

- **Languages** —  
HTML, CSS, JavaScript(proficient)
- **Frameworks** —  
React, Redux, Material-UI, Bootstrap, Tailwind CSS

## PROJECTS

---

### Restaurant Management System —

**Duration:** 1 month

**Technology Used:** MySQL, React, Figma

This is a college project where I was responsible for designing the user interface layout and the frontend part.

- Designed the whole User Interface with figma.
- Developed a user authentication system.
- Implemented the Home, Login, Search, Blog, About and Checkout page.

### Covid Tracker —

**Duration:** 1 week

**Technology Used:** React, Redux, Material UI

This is a Covid Tracker web app where users can see live Covid data of all the countries.

### AI News App —

**Duration:** 1 and a half week

**Technology Used:** React, Styled-components, Alan-AI

This is a News app powered by a voice assistant tool Alan-AI. You can say the specific commands to get the news and the app will present the news for you.

### Slack Clone —

**Duration:** 2 week

**Technology Used:** React, Redux, Firebase, React Router

This is a Slack clone app where users can create unique rooms and chat in real time.
